

## Ukraine Project

November 14 - 25, 2016

For the supporters of CrossTalk:

My name is Cristian Vidican. I graduated CrossTalk courses in 2015. I was part of the first CrossTalk cohort in Oradea. After graduation I was invited by Dr. Kent to be part of future CrossTalk cohorts. Therefore, I joined him this year to start a new cohort in Ukraine. It was such a wonderful experience that I grew up spiritually. It was a challenge to teach others to preach.

I work with Romanian Pentecostal ministers from Ukraine. I noticed that most of them do not have a theological training, and they really need help in learning how to preach the Word of God. We think they are the most suitable to preach in their area, so we have decided to train them.

We find there people willing to learn and apply the new things they learned. After the first meeting we could see improvements that have encouraged us. I am looking forward to participate next year to the next meeting.

I encourage you to support this project. So, ministers who cannot afford theological education, in this way they are able to participate in CrossTalk program.

May God bless you!  
Cristi
